

The FAIR Fair Allocations in Research FOUNDATION

**JERRY JACKSON, LIVER TRANSPLANT RECIPIENT
DIRECTOR, PUBLIC INFORMATION SERVICES
NEW ORGAN-DONOR POLICIES**

Steve Jobs, Chief Executive Officer
Apple Computer Corporate Headquarters
1 Infinite Loop, Cupertino, CA 95014

July 3, 2009

Dear Mr. Jobs,

The FAIR FOUNDATION and our four principles, all liver transplant recipients are elated to learn of your successful liver transplant. We consider our experiences, a miracle!

When I received my life saving liver transplant twelve years ago, there were approximately five thousand potential recipients waiting for a transplant, and close to five thousand available donors.

Today, there are now over 100,000 individuals, and some dying while waiting for a life saving transplant yet the numbers of available donors nationally is a mere 14,600 individuals. A sad commentary indeed!

Because of our gratitude for being spared, the four of us made the decision last year to donate our time to make a difference and prepared proposed legislation, "The Organ Donation Enhancement Act" to be introduced in the California legislature this coming year.

We have prepared a sample copy of the bill and a packet of literature (find enclosed) that represents the merits of our efforts, and will be useful for legislators to better understand and thus enact this proposed law. You will notice a sizeable number of initial bill endorsements already obtained from The FAIR FOUNDATION nation-wide membership.

Because of your recent "miracle", we thought you too might be receptive to this invitation to become an active supporter of "The Organ Donation Enhancement Act" by sending us your letter of endorsement on Apple Computer letterhead, joining others to address the joint Senate-Assembly hearing on the bill some time next year, contacting legislator-friends for their support and/or pre-purchasing a minimum of ten round trip tickets from Los Angeles-Sacramento in order for us to spend time educating the 120 legislators. A note sent to me indicating your interest and how you might participate will suffice at this time.

In closing, we invite you to view our moving and powerful "Gift of Life" video that is intended to be made available to every legislator and has been shown in various parts of the world as well as some 5 million subscribers have viewed it on 59 cable TV stations across our country. Please go to: http://fairfoundation.org/jw_flv_player/jerry_jackson2.html

We thank you for your consideration.

Sincerely,

Jerry Jackson
